Human Drum

Human Drum Too many bridges turned Mile and mile of earth Scorched behind us

And I need to ask you this I need to understand the truth

Can you hear the human drum beating? Hear the human drum Can you hear the human drum beating? Kicking out Kicking out

And then I get so low When the wire between us Comes between us

Can you hear the human drum beating? Hear the human drum Can you hear the human drum beating? Kicking out Kicking out The human drum
