# Early Stardom

**Cuco**

Million dollars
That's the model
Feels like we just won the lotto
We're early stardom
So what's the problem?
Million dollars
That's the model
Feels like we just won the lotto
We're early stardom
So what's the problem?

I got some dreams, I got some goals
I got my girls, but they ain't no hoes
Wanna be hella rich, go with the flow
I'm on a roll, let's hope I don't go

I wanna buy my mom a house
Wanna buy my dad a car
And get my family out the hood, so they all start living good
Wanna marry a cool girl, so I could give her the world
Buy her rubies and some pearls, and the best things for my girl
They say that fame ain't real, but I'm the realist they know
Fuck it, watch me go
Ain't got time to stop this show

Million dollars
That's the model
Feels like we just won the lotto
We're early stardom
So what's the problem?
Million dollars
That's the model
Feels like we just won the lotto
We're early stardom
So what's the problem?

Look at the future, ain't ever look back
The past is the past, and that shit was whack
The hustle and grind, don't wanna rewind
I promise I'll make it, just give me some time

I'm on roll, while you still is square
I know what you thinking, that life isn't fair
But what have you done to put yourself there?
Don't look at me I don't wanna go there

I'm doing my best, the bet on my waist
Cuz one of these days, I'm making it rain
You're the re-charge, of all the good days
I'm staying away from those fuckers that changed
I wanna be rich, be nobody's bitch
Get all of my money and stay humble and shit
I'm on the right track, to get royalties
Listen to this track and then you will see that

Million dollars
That's the model

Feels like we just won the lotto
We're early stardom
So what's the problem?

Million dollars
That's the model
Feels like we just won the lotto
We're early stardom
So what's the problem?
