

Far Away From Home

Cuco

I'm far away from her, but I'm sure I know she knows
That there's nobody else existing in my world
In the middle of the road, a beacon lighting up for help
Telling me to come back home, I don't know where to go
In the morning, with nobody next to me
In my bed, in my bed
So lonely, will somebody come and help?
I'm rotting in the image of my head
