

Everybody knows I've been trying so hard  
I thought I'd be okay, I've been alone from the start  
You know I got your name so stuck to my heart  
Stuck to my heart  
Stuck to my heart  
Everybody knows I've been trying so hard  
I thought I'd be okay, I've been alone from the start  
You know I got your name so stuck to my heart  
Stuck to my heart  
Stuck to my heart

I don't know why things happened this way  
Sitting around waiting for the next day  
I just don't click with people  
I'm feeling like pins and needles  
Observing the crowd, wondering why I came out  
I wish I could shout when I open my mouth  
Haven't been one to follow  
Do you have smile I can borrow?

Everybody knows I've been trying so hard  
I thought I'd be okay, I've been alone from the start  
You know I got your name so stuck to my heart  
Stuck to my heart  
Stuck to my heart  
Everybody knows I've been trying so hard  
I thought I'd be okay, I've been alone from the start  
You know I got your name so stuck to my heart  
Stuck to my heart  
Stuck to my heart

Baby, what happened to us?  
I acted foolish  
We're not the same (The same)  
Baby, what happened to us?  
I acted foolish  
We're not the same

Everybody knows I've been trying so hard  
I thought I'd be okay, I've been alone from the start  
You know I got your name so stuck to my heart  
Stuck to my heart  
Stuck to my heart  
Everybody knows I've been trying so hard  
I thought I'd be okay, I've been alone from the start  
You know I got your name so stuck to my heart  
Stuck to my heart
