

## Forevermore

Cuco

Empty days  
To every day I want everyone to know  
What I found roaming around  
To bless me while I'm alive  
That's without a doubt

And through separate ways  
Desperately facing everyone around  
I had a dream that we would meet  
And go places beyond what we've seen  
Keep my heart with you from now  
Forevermore
