

Give It The World

Cuco

Baby, are you scared of love?
I wish I wasn't scared of love
'Cause I always wanna try
With the person that makes me cry
Couldn't make it any more clear
That you didn't want me near
Baby, I can disappear
Far away from right here

I always think about us
Wonder where I went wrong
Would you ever come back to me
If I write you a song?
Always thought we were vibing
But you were just undecided
I don't know what to say
What to say now that you're gone

Baby, was it always
Creeping on your mind
To leave my side?

Baby, are you scared of love?
I wish I wasn't scared of love
'Cause I always wanna try
With the person that makes me cry
Couldn't make it any more clear
That you didn't want me near
Baby, I can disappear
Far away from right here

The day was marked when you left
You tore my world apart
I should've known
I should've seen the signs
You weren't satisfied
And I was never right
No matter what I did (No matter what I did)
So just forget (So just forget)
Forget my face

Baby, are you scared of love?
I wish I wasn't scared of love
'Cause I always wanna try
With the person that makes me cry
Couldn't make it any more clear
That you didn't want me near
Baby, I can disappear
Far away from right here

Sometimes it is nice
To be with someone special that you like
Maybe hold their hand and kiss their lips
Slow dance and hold their hips

Sometimes it is nice
To be with someone special that you like

Maybe hold their hand and kiss their lips
Slow dance and hold their hips

Sometimes it is nice
To be with someone special that you like
Maybe hold their hand and kiss their lips
Slow dance and hold their hips
