Mesh Camp

Cuco

Someone sings
They sing to me
I found my way

Secretly and violently
The ocean sways
I stay in place

Mesmerized by your face, your face
Trances and chances coincide in your mind

So take this journey with me
Can't stand up, I'll get dizzy
Might be a little loud
A lot to think about
So gladly, I'll get risky
That might be what I'm missing
Right now

So take this journey with me
Can't stand up, I'll get dizzy
Might be a little loud
A lot to think about
So gladly, I'll get risky
That might be what I'm missing
Right now
