Cuco

Baby don't you know
How beautiful you are
My life came crashing down the day you left my heart

I wish you could see
That you belong with me
My life has no meaning if you're far away and not next to me

Time passes by and they say it only gets better
Doesn't seem to be the case
At least not in my life

Drowning in sorrow on all the lost beautiful days
All I do is complain
That you're not here

Tryna figure out things that don't make sense to me
Hopeless like someone so hopeless can be
Times keep on changing, I'm tired of faking
Like I'm not numb when life is amazing

Baby don't you know
How beautiful you are
My life came crashing down the day you left my heart

I wish you could see
That you belong with me
My life has no meaning if you're far away and not next to me

Say that you miss me
That you wish you were with me
Say, say that you do

Say that you miss me
Don't you wish you were with me?
Say, say that you do

Baby don't you know
How beautiful you are
My life came crashing down the day you left my heart

I wish you could see
That you belong with me
My life has no meaning if you're far away and not next to me
