

## Sweet Dissociation

Cuco

Sweet Dissociation, come and take me away  
I just tried to reach you, but they say you're away  
'Cause if you don't answer I'll try another day  
I'm hovering above myself, don't know what to say  
It's lonely up top  
I like it this way  
Sweet Dissociation, come and take me away

It starts coming through in waves, that's how I find out  
I catch and lose the signal, it comes in and out  
Like I said it before, I don't wanna be the crowd  
I just want to find a way to be right now  
Right now  
I want the right things to play out

Whenever I'm alone  
I don't wanna stay at home  
Whenever I'm alone  
I should probably stay at home

Sweet Dissociation, come and take me away  
I just tried to reach you, but they say you're away  
Sweet Dissociation, come and take me away  
I just tried to reach you, but they say you're away  
'Cause if you don't answer I'll try another day  
I'm hovering above myself, don't know what to say  
It's lonely up top  
I like it this way  
Sweet Dissociation, come and take me away
