

## Time Machine

Cuco

If I had a time machine then I'd go back in time  
Spend all of my hours with you, no mistakes of mine  
I can only try to take the pain away from your eyes  
In my dreams I'll make a time machine go back in time

17 thousand hours came and then they flew right by  
If I had super powers, I would freeze the time

I could take you everywhere that you wanted to go  
If I had super powers, I'd do it all again  
I don't want to make you cry or ever shed a tear  
Hold you when you need me to take care of all your fears

You know you leave me hypnotized with the splendor of your face  
If I had super powers, all your pains would be erased  
If we come back to this earth again from this purgatory form  
I hope it all plays out again with this fantasy reborn

17 thousand hours came and then they flew right by  
If I had super powers, I would freeze the time

I could take you everywhere that you wanted to go  
If I had super powers, I'd do it all again  
I don't want to make you cry or ever shed a tear  
Hold you when you need me to take care of all your fears

I could take you everywhere that you wanted to go  
If I had super powers, I'd do it all again  
I don't want to make you cry or ever shed a tear  
Hold you when you need me to take care of all your fears
