

# Troublemaker

Cuco

I just stay by your window  
As the wind blows  
You blow me away  
I just pray that your kinfolk  
Don't think we sinful  
I know what they say

Girl, you know that I  
I'll take the heat for you  
Your folks don't think I try  
I think that you like  
The fact they hate my tattoos  
And they think I'm always high

I know you're no angel  
We're both on the same road  
We're driving through Daygo  
You got me, I got you  
Know nothing could stop you  
With me by your side

I just stay by your window  
As the wind blows  
You blow me away  
I just pray that your kinfolk  
Don't think we sinful  
I know what they say

I try  
I try  
And I try  
I try  
You know I know you like what you think they don't like  
I try  
I try  
And I try  
I try  
They don't know what I know, she makes trouble all night

I know you're no angel  
We're both on the same road  
We're driving through Daygo  
You got me, I got you  
Know nothing could stop you  
With me by your side

I just stay by your window  
As the wind blows  
You blow me away  
I just pray that your kinfolk  
Don't think we sinful  
I know what they say

It could be so simple  
Your teeth in your pillow  
We both need a place to stay  
I just stay by your window

As the wind blows  
You blow me away

Ooh, oh, whoa, ah, ah  
Ooh, oh, whoa  
Ooh, oh, whoa, ah, ah
