

If I didn't have you  
Where would I be  
You're all that matters  
I need you listen what I'm saying

You'll always be in my heart  
Promise we'll never part

I'm with you, and I won't let you go  
I will be here waiting wherever (wherever, wherever)  
You will go I'm by your side

You are my angel  
You are my strength  
My prayers been answered  
Believe me baby, you are my savior

You'll always be in my heart  
Promise we'll never part

I'm with you, and I won't let you go  
I will be here waiting wherever (wherever, wherever)  
You will go I'm by your side

They say nothing last forever  
You and me, we know much better  
We've got to hold on

You'll always be in my heart  
Promise we'll never part

I'm with you, and I won't let you go  
I will be here waiting wherever (wherever, wherever)  
You will go I'm by your side  
I'm with you, and I won't let you go  
I will be here waiting wherever (wherever, wherever)  
You will go I'm by your side
