

Breathe

Cueshe

Suddenly everything's so different
Is there something that I need to know?
Do we always have to wear a frown?
When we're together, but now
Can't believe this is finally over
Can't believe you tried to bring me down
I can't believe you tried to forget about
Everything we had

I never thought that you would be leaving me
I'm standing in the middle of the pouring rain
I got nothing left inside of me to breathe
And I said I would never take you back again
I wonder if you're wearing still that heart of stone
I just wanna crash it so I can breathe

Suddenly everything's much better
I found a way to turn things around
I can't believe that I'm finally over you
It's over right now
Now that we're over goodbye

I never thought that you would be leaving me
I'm standing in the middle of the pouring rain
I got nothing left inside of me to breathe
And I said I would never take you back again
I wonder if you're wearing still that heart of stone
I just wanna crash it so I can breathe

Get lost right now
I'll beat you somehow

I never thought that you would be leaving me
I'm standing in the middle of the pouring rain
I got nothing left inside of me to breathe
And I said I would never take you back again
I wonder if you're wearing still that heart of stone
I just wanna crash it so I can breathe

Get lost right now
I'll beat you somehow
