

Here Me Now

Cueshe

So here we are about to take
The final chapters in our lives
You go saying I'm this and that
That I am not cut out for the job

Cause everybody thinks I'm throwing it all away
And everybody thinks I'm gonna cry someday

Cause I'm here for you
To push you down
Cause I'm here for you
To kick you out

Cause you don't know me like they do
So, baby go walk out that door
Cause I'm here for you

Now here we are, we've make it big
We've reached the top we're doing great
We're drinking booze, we got big cash
We got girls partying all night
