Never Leave

Cueshe

I, have this fantasy of you and me together
In a world, where love exists

You, have this way of making me feel special
Every time the world pounds down on me

Never hurt you
Never leave you
Never ever make you cry
Until I die

I, never knew what life meant
In this big old crazy world until i met you

You, you'd vanish all my sufferings
And misery can't imagine life without you
