

# Over Now

Cueshe

You don't look into my eyes  
And you're lying to my face  
You know that I'm being good to you

I believe you know much better  
I can't wait any much longer

I want you show let me go  
Cause I just don't  
Feel you now I guess somehow  
Maybe it's over now

After all I've sacrificed  
Somehow you don't understand  
Only you can lift me up, pull me down

I believe you know much better  
I can't wait any much longer

I want you show let me go  
Cause I just don't  
Feel you now I guess somehow  
Maybe it's over  
I want you show let me go  
Cause I just don't  
Feel you now I guess somehow  
Maybe it's over

I want you show let me go  
Cause I just don't  
Feel you now I guess somehow  
Maybe it's over  
I want you show let me go  
Cause I just don't  
Feel you now I guess somehow  
Maybe it's over  
I want you show let me go  
Cause I just don't  
Feel you now I guess somehow  
Maybe it's over  
Maybe it's over  
Maybe it's over
