Sky

Cueshe

At first I loved you
I'd give anything to you
I'd climb the highest mountain
Just to be right by your side

Of course I love you
And baby I needed you
You lifted me up
From my darkest days

Then suddenly things went sour
I never imagined that
You were just fooling me
Cause baby it hurts inside

Oh, I wish this pain would go away
Cause its killing me inside
Oh, I wish this pain would go away
Cause you left me hurting

Oh, oh, ooh you lied to me
Oh, oh, ooh now you should set me free
Baby please stop pulling me down
