

There Was You

Cueshe

When I needed love,
There was you
When I needed someone to hold,
There was you
But my eyes couldn't see what I have,
That there was you

With all the pain and tears, wont go away
With this song, are reaching for you to stay
Comparing morons with his intentions,
I'm not enough

I miss the times you hate me
Coz it only shows that you love me
Bring back those nights I could see you again
I have the sun that's screaming,
Coz without you there's no meaning
When will I see you again

As far the east and west did you forgive
And I'll be here, help you forget
All I want is to mend a broken heart,

That's part of you

I miss the times you hate me
Coz it only shows that you love me
Bring back those nights I could see you again
I have the sun that's screaming,
Coz without you there's no meaning
When will I see you again

I miss the times you hate me
Coz it only shows that you love me
Bring back those nights I could see you again
I have the sun that's screaming,
Coz without you there's no meaning
Bring back those nights so I could see you again

Hold on the miss were trying
Erase the memories of crying
When will I see you again
