

## Where Did We Go Wrong

Cuff the Duke

We all say the same thing  
But no one ever says what they really think  
You can buy opinions now  
A cheaper truth, it's easier to sell

A dull mission to consume  
All we can do to fight off being bored  
And in the start it made sense  
Cause no one ever knows what they really want

I can't wait to get away  
Move past this place  
Where everything is fake

I can't wait to get away  
The only thing that matters  
Is knowing what it takes

I'll have some whoopin we'll look away  
We need so much and someone has to pay  
They raise the prices, ignore the cost  
Destroy the land as long as it gets bodge

Where did we go wrong?  
Is it somewhere in our life?

I can't wait to get away  
Move past this place  
Where everything is fake

I can't wait to get away  
The only thing that matters  
Is knowing what it takes

I can't wait to get away  
Move past this place  
Where everything is fake

I can't wait to get away  
The only thing that matters  
Is knowing what it takes
