

Abducted

Cults

I knew right then that I'd been abducted
I knew right then that he would be taking my heart
I knew right then no one was above him
I knew right then that he would be breaking my heart

He tore me apart because I really loved him
He took my heart away and left me to bleed out, bleed out
He broke my heart because I really loved him
He took it all away and left me to bleed out, bleed out

I knew right then that she'd been abducted
I knew right then that I would be taking her heart
I knew right then that I'd never love her
The reasons I hope the dream hasn't left her scarred

He tore me apart because I really loved him
He took my heart away and left me to bleed out, bleed out
He broke my heart because I really loved him
He took it all away and left me to bleed out, bleed out

He tore me apart because I really loved him
He took my heart away and left me to bleed out, bleed out
He broke my heart because I really loved him
He took it all away and left me to bleed out, bleed out
