

Always Forever

Cults

You and me always forever
We could stay alone together
You and me always forever
So you'll stay, never to suffer

You know you've got me in your pocket
You don't just have to wait around
You know I keep you in my locket
Just come here and we can settle down

You and me always forever
We can stay alone together
Heard you say things could be better
Don't leave don't get away right now

You know you've got me in your pocket
You don't just have to wait around
You know I keep you in my locket
Just come here and we can settle down

Oh darling it's the longing to think of us apart

You know you've got me in your pocket
You don't just have to wait around
You know I keep you in my locket
Just come here and we can settle down

You and me always forever
We can stay alone together (repeat)
