

Hope You Found What You've Been Missing

Cults

Is it we
Ran out of things
We've sunken deep together

And I don't wanna remember

Oh you had me crawling at your feet
Opened my mouth but couldn't speak it
Patterned breathing pulse increasing
Lost on me
Still I hope you found what you were missing
Hope you found what you were missing
Hope you found what you were missing

Used to be
A better part of me
Now sympathy is measured

And I don't wanna remember

Brittle glimmer
But you weren't complete
Still holding on but I am weakened
Overreaching
You were seeking more from me
Still I hope you found what you were missing
Hope you found what you were missing
Hope you found what you were missing
Hope you found what you were missing
Hope you found what you were missing
