

Never Saw the Point

Cults

I never saw the point in trying
Cause I would only let you down
And I just couldn't take you down there with me
I just can't stand to see you drown

I never saw the point in crying
Cause I can't be the way you want
And I don't want lay around here waiting
Waiting for you to change your mind

I just keep on telling myself
That I, I don't need anyone else
Yeah I'd be just fine on my own
That I can make it out
I should
I know

I never saw the point in trying
Cause I would only let you down
And I just couldn't take you down there with me
I just can't stand to see you drown

I never saw the point in crying
Cause I can't be the way you want
And I don't want lay around here waiting

Waiting for you to change your mind

I, I don't know what else I can do
Now I'm, Done trying cause you
Yeah I Could never stop loving you
But there's nothing else for me to do

I never saw the point in trying
Cause I would only let you down
And I just couldn't take you down there with me
I just can't stand to see you drown

I never saw the point in crying
Cause I can't be the way you want
And I don't want lay around here waiting
Waiting for you to change your mind

What I wouldn't give for the chance to see you smile
I did what I could to be yours just for a while
What I wouldn't give for the chance to see you smile
