

## Not Impossible

Cults

Broken phrase bitter on my tongue  
I took a breath, I cleared my lungs  
Excuses gather speed  
It's not that I deceived you but I'm bound to  
Like waking in a dream  
A world away with different outcomes  
Taking what you need  
You'll make your way without 'em

It's not impossible  
It's not impossible  
It's not impossible  
For you to be gone gone gone gone  
It's not impossible  
It's not impossible  
It's not impossible  
For me to go on, on, on, on

It seems my triumphs, my despair  
I wish I wasn't so aware  
A solitary fall  
> Where everything will halt is how we'll get through  
Once ordinary dream  
A place you go you can't return from  
Simple as it seems  
A one-way track to nowhere

It's not impossible  
It's not impossible  
It's not impossible  
For you to be gone gone gone gone  
It's not impossible  
It's not impossible  
It's not impossible  
For me to go on, on, on, on
