

Oh My God

Cults

Oh my god, I'm stuck inside the same position
I'm so tired of sitting around here with my boring life
Wishing I could find another name to go by
Late at night I'm dreaming about a time where I could change my
side

Please don't tell me you know the rules to go by
I can run away and leave you anytime
Please don't tell me you know the plans for my life
I can run away and leave you here to stay inside dreaming

I'm so tired of all these honest decisions
Oh my god, I'm ready to walk right out that door
I never wanted a single thing for my life
All I wanted was to know was to know that I have never wasted m
y time

Please don't tell me you know the rules to go by
I can run away and leave you anytime
Please don't tell me you know the plans for my life
I can run away and leave you here to stay inside dreaming

Oh my god, I'm stuck in the same lame tradition
I'm so tired of thinking about the things that I have been miss
ing
I never wanted a single thing for my life
All I wanted to know was to know that I have never wasted my ti
me

Please don't tell me you know the rules to go by
I can run away and leave you anytime
Please don't tell me you know the plans for my life
I can run away and leave you here to stay inside dreaming
