

Poodles Dancing

Cults

Got me singing on the radio
Everything imposed in stereo
I was thinking we should take it slow
I just think it's better that you know

I feel that I will love you
We've got no pressure that we're bound to
I feel that I will love you
We've got no pressure that we're bound to

Got me spinning dizzy, vertigo
Disconnecting in the afterglow
I have a shot that we could give a go
Always yes until tomorrow

I feel better around you
Got no pressure we're bound to
I feel better around you
Got no pressure we're bound to

I feel that I will love you
We've got no pressure that we're bound to
I feel that I will love you
We've got no pressure that we're bound to
