

# Working It Over

Cults

I remember everything seemed less heavy  
Disorienting, think I'm running on empty  
We've got gravity and that's not a lie  
Got regretfulness of days gone by  
There are times where I feel I'm regressing  
Hard to keep on going, hard to keep stepping  
I keep on laughing though I'm feeling so sad  
Looking back to then, I feel so bad

Going to stay  
Are you going to stay?  
Can you stay with me a moment?  
We've only got a moment  
Going to stay  
Can we live this way?  
Can you stay with me a moment?  
You've got to feel the gravity now

I know this storm is getting harder to weather  
I'm not trying to make you feel any pressure  
But things are moving fast and that's not a lie  
If you're not growing then they say you'll die  
Pretty soon think we could sail to the moon now  
Oh, just think of looking down at the blue how  
We could be there when the gravity dies  
Hold my hand and watch the days go by

Going to stay  
Can we live this way?  
Can you stay with me a moment?  
We've only got a moment  
Going to stay  
Can we live this way?  
Can you stay with me a moment?  
You've got to feel the gravity now

And I will do my best to keep my focus  
To give you my everything  
And if this mess is unfixably broken  
I can't think who I'd wanna see  
Someone like you standing with me  
In the end

Going to stay  
Can we live this way?  
Can you stay with me a moment?  
You've got to feel the gravity now  
Going to stay  
Are you going to stay?  
Can you stay here in the moment?  
You've got to feel the gravity now
