

You're In Love With Yourself

Cults

Every morning when I wake, I try
To make believe that I'm asleep
Denial

In the new year
When you sleep
I'll lock all of the doors
When I'm through here
I won't weep (I won't weep)
I'm afraid not anymore
And I know it's hard to say goodbye
But you won't see me anymore

'Cause when all of it goes down
Over and over, I say that it's not enough

You're in love with yourself
And act like the devil to everyone else
So in love with yourself
You don't want forgiveness
You don't want the help

Every morning when I wake's a trial
Make believe that I'm asleep
Denial

I had visions
I had plans
Held it all in my hands (In my hands)
My decisions
My demands
Were ignored
Never began

And I don't wanna waste all of my time
'Cause I don't believe anymore

And when all of it goes down
Over and over, I say that it's not enough

You're in love with yourself
And act like the devil to everyone else
So in love with yourself
You don't want forgiveness
You don't want the help

I won't weep
I won't weep
I won't weep

You're in love with yourself
And act like the devil to everyone else
So in love with yourself
You don't want forgiveness
You don't want the help

You're in love with yourself

And act like the devil to everyone else
So in love with yourself...
