

Get funky mr dj  
Do that thing from a guy called jay jay  
Say you'll play that song  
There's a gril out there and she turns me on  
I feel for her  
Really feel for her  
And if she hears that one I hope it affects her  
In her heart  
To her soul  
Hey my dj let it roll

I like you  
No matter what you do  
I like you  
Hope you feel the same way too  
I like you  
And everything you do  
I like you  
And that is why I'm true to you

Bring it straight to that state  
Of being her man and she's my mate  
Look mr dj her cherry lips  
Superfly  
She's a real trip  
Goody good you're under my hood  
And the way it looks  
It's the way it should be to me and it's love I see

Could be yours till eternity

Girl I like you  
And I attest you a funky opportunity  
Let me kiss you right on the mouth and not on the cheek  
Love rate is at the highest peak  
Pretty fly you passed me by  
But do it now i'm gonna die  
I'll be the best boy that you ever had  
So don't turn away  
I'll give you love instead

I like you  
No matter what you do  
I like you  
Hope you feel the same way too  
I like you  
And everything you do  
I like you  
And that is why I'm true to you

I like you  
No matter what you do  
I like you  
Hope you feel the same way too  
I like you  
And everything you do  
I like you

And that is why I'm true to you
