

Work on Me Baby

Culture Club

Yeah baby

I wanna tell you something girl

God intended and you planned it
It was meant to be
Like a lover, or a brother
I'll shield you from the enemy

Don't say forever
Don't say forever
Hold me
Let's stay together
Let's say together
Look in my eyes
Can't you see what I need?

Work on me baby
Work on me baby
I do it better when I'm under pressure
Work on me baby
Work on me baby
Some boys are devils
And some fools say
Maybe we'll work it out

I think we'll work it out

God intended, he depended
On our honesty
Like a lover, like no other
I'll shield you from the enemy

You've been trying baby
Just painting a picture for me
Ain't no use crying darling
When we love so easily

Every day in every way we'll work
