

Nowhere Else

CunninLynguists

There's nowhere else
I'd rather be
There's nowhere else
I'd rather be (oh)
There's nowhere else
I'd rather be (be) (yeah, yeah)
There's nowhere else (mic check, mic check)
I'd rather be (oh)

Confusion, illusions movement
Almost drew the wrong conclusion
A blessing, stared me right in my face and
I treated it like a pollution
Was off-kilter until I changed filter
And saw a strange flame was familiar
I know my past actions left you bewildered
Be thrilled at a chance to fulfill ya
I'm happy you still you, sassy and real
However the cards fall, I'm happy to deal
And chilling your aura's miraculous steel
Plant my soul in your soil, see what it happens to yield
Let's a build, a queendom
This me you've never seen him
Won't believe the depths I would spring from
Well-prepared for any play that this team run
A sweeter love I couldn't dream one

There's nowhere else
I'd rather be
There's nowhere else
I'd rather be (oh)
There's nowhere else (yeah, yeah)
I'd rather be (be) (mic check, mic check)
There's nowhere else (nowhere, nowhere)
I'd rather be (oh)

No way no one from nowhere won't notice the bliss in me
K-I-S-S-ing self without sitting up in the tree
May not be blessed with wealth but deeply invested in glee
No glow for promo photos, just picture me how you please
Cheese! Times get rough as religious knees
Bloodsuckers dotting 'I's over fingers that's crossing 'T's
Enough to give you pause like that moment before you sneeze
In this abyss the magic trick is pull inner bliss out your sleeve
Freeze! Wave your hands where my eyes can see
While I bust a rhyme right open and spread it round my beliefs
Every beef is impossible, even vegans can eat
Finding saints ain't possible, leave us heathens to teach
Painting pictures through speech, canvas always in reach
Best foot forward, my good foot look like it's Mr D's
We all on the right track, we just moving at different speeds
My friend [?] perfect with where I'd rather be

So, uh

There's nowhere else
I'd rather be

There's nowhere else
I'd rather be (oh)
There's nowhere else
I'd rather be (be)
There's nowhere else
I'd rather be (oh)
