Pull up in the '62 impala, smelling like that California fire  
My girl, my smoke, both exotic, my flow is straight dope narcotics  
I'm watching in the Audi, not my shit but a bad bitch driving  
Eight seven on the I 10, used to be a mule flying in products in from the is  
lands  
Buy a nigga anything he want two 15's in the trunk homeboy I'm stylin'  
Riding by them, fake niggas dont like him  
Real ones get inspired  
By him, cause they know I climbed out the mud and got it  
Cause they know I came out the dirt pileish, hella racks in my pocket

[Hook:]  
Everywhere the money go, them bitches gon' follow  
Everywhere the money go, them bitches gon' follow  
She only lovin' on the dollars  
Watch her, Baby girl diggin in yo pockets, when you not watching  
[x2]

Focused on the cash and not the ass, some my niggas spend, some I stash  
When the summer end the furs attack, Minks is full length I let 'em drag  
Cross the marble floor, I money dance, Ice blocks is piling on my hand  
Watch is like the Vegas strip, I made it bitch  
Underground, so I understand what its like to feel like being slept on for r  
eal  
Watching chains face when the money peel, the game is cold woah, stainless s  
teel  
Unforgiven, no kidding, straight business making a killing  
They want you dead because of how you livin'  
Bitches giving you head cause the car you driven  
You stars my nigga, they straving nigga  
It's hard my nigga, let god be with us, we in the trenches stacking riches  
Stand two steps ahead of them gold diggers, I was shown by them older niggas  
thats why I'm colder than ya  
I'm a high roller nigga, I swear its like I'm frozen in here  
Polar bear chills ballin in wheel, too much dope out here to stand still

Yeah...  
Uhhuhhhhhh
