

Eyes Closed

Curren\$y

Andretti on the coke game, ice cold
Watch me roll this motherfucker with my eyes closed
Too much paper to fold, still gettin' more
Now watch me roll this motherfucker with my eyes closed
Watch me roll this motherfucker with my eyes closed
I could roll this motherfucker with my eyes closed
Andretti on the coke game, ice cold (Ice cold, Ice cold)

It's 3 AM, she calling to pull up and smoke
She tryna fuck our planet off, like I don't know
I roll four, lit one up when she come through the door
She peepin' everything, chandelier, marble floor
I passed that and told her keep it, I got hella reefer
Ass fat, let me see it, don't be playin' either
Surround sound bumpin' loud, got her workin' out
This ain't a strip club, this my studio house
Lil mama I could bring you round, if you really down
Bring you to my real crib in a lil' while
I got a boss bitch countin' in there right now
She could show you how, she could put you down
Can't fuck with them clowns, can't fuck around
I never said I run the city, but I hold it down

Andretti on the coke game, ice cold
Watch me roll this motherfucker with my eyes closed
Too much paper to fold, still gettin' more
Now watch me roll this motherfucker with my eyes closed
Watch me roll this motherfucker with my eyes closed
I could roll this motherfucker with my eyes closed

Ferrari's on the road, I ain't goin' home
Everyday it 20 cones, whole ounce gone
I don't switch watches, got Rollies, different timezones
Got a pound in the fridge, pour champagne on your bitch
My lil' brother got a lake house, he gon' drop a pent'
You can bring you friends, just don't bring no fuckin' men
I got a pilots area, I got my money in my ear
Talkin' while I bought the leer, wheels up, we disappear

Andretti on the coke game, ice cold
Watch me roll this motherfucker with my eyes closed
Too much paper to fold, still gettin' more
Now watch me roll this motherfucker with my eyes closed
She on the phone talking 'bout she tryna fuck and smoke
She 'bouta ride this motherfucker with her closed
