

## Fast Foreign

Curren\$y

Million dollar jewelry box, how many watches he got?  
New Rolex's every time we get a check, bought two just now  
Garage full of cars, trying to decide which one I'm gon' take out  
Gotta keep the faith in yourself, you gon' make it out  
I picture myself doing better, never had a doubt  
Now we change the weather by boarding the planes and hopping out  
I landed to a million dollars  
Landed to a fast foreign, I ain't talking cars podna

She never forgot about it  
The night she dripped dry on the balcony after the shower  
Walk to my car burning fresh flowers  
Looking like money, higher than a fuckin' mountain  
Money bitch ain't shit, leave it how you found it  
Is it when you around or you can't sit by us  
Thirty cars, a couple boats, all my rich podnas  
Dreamt about it and we got it, nigga what's your problem?
