

# Feel Nobody

Curren\$y

The first time we came in with the rep  
Now we got that fresh seafood for everybody  
That's love for the people right there  
Yeah...

I'm so fucking high I don't feel nobody  
All I fear is God plus he's on my side  
I got the angel on the hood of the car I'm driving  
I'm good in every hood, you can't even slide  
I'm so fucking high I don't feel nobody

I'm so fucking high I don't feel nobody  
All I fear is God plus he's on my side  
Arriving high riding sly like the road with the sky  
I got money on the line, I got more money outside  
I got more dream cars than I can drive  
Got more dreams in my mind  
I pull it all off in due time  
I break off, blessed is my grind  
Cause I've been putting it in, over and over again  
My team committed to win  
So we save, some we spend  
Dragging furs full length  
Them niggas slid in like pimps  
Its like a 70's film but bitch this really how we live

I'm so fucking high I don't feel nobody  
All I fear is God plus he's on my side  
I got the angel on the hood of the car I'm driving  
I'm good in every hood, you can't even slide  
I'm so fucking high I don't feel nobody  
I'm so fucking high I don't feel nobody  
All I fear is God plus he's on my side  
I got the angel on the hood of the car I'm driving  
I'm good in every hood, you can't even slide  
I'm so fucking high I don't feel nobody

The foreigners come alive when there's hoes outside  
I popped my hood she was surprised there was no motor inside  
Bitch my engine in the back, this cost me 300 racks  
Spitta got dollars on top of dollars  
Diamonds on top of diamonds  
Impalas behind Impalas  
I got my Bentley blocked in  
Snuck up we know they're watching  
Fuck 'em

I'm so fucking high I don't feel nobody  
All I fear is God plus he's on my side  
I got the angel on the hood of the car I'm driving  
I'm good in every hood, you can't even slide
