Neighborhood superstar...

Yeah, fool you know what's happenin', pull up in something nasty
New school a classic, I'm up for the challenge
Animal [?] I'm in the palace
Jet Life well established, she just flew in from Dallas
She fine and teach gymnastics
My game tight, vacuum sealed plastic
I ain't even fucked, she just wanted me to have it
I had fun looking at it, I ain't have to grab it
Starved her, she pushed harder, I applauded her, rewarded her
Broke her off, woke her up in the morning
Dropped her off at the airport in my Ferrari
Girl, what you looking sorry for?
I'll fly you back for a whole week next month, I know that's what you want
We can link up and stunt but for now I gotta run
Meeting with my accountants, Coca-Cola and rum
Discussing the millions that we made and the millions that I've got yet to come
Gotta get this shit done
