

Sending Signs

Curren\$y

My future bright, gave the game so
Much of my life, reinvented effortless like resurrecting Christ, I'm not religious but
The universe sending me signs, through it all, ball out, it's your fucking time, get
Your fucking shine, get
Your fucking shine
The universe be sending me signs

She's pulled up in attack mode, thank her for that though
Passed up a fat roll for after the episode
Repeat frequently if she could respect the code
No dirt on my name, no stains on my clothes
Jet life on my chain, jet life on my Rolls
I'm all on her brain, you losing control
My future bright, gave the game so much of my life
Reinvented effortless like resurrecting Christ
I'm not religious though the universe sending me signs
Do it now, ball out, it's your motherfucking time
Get your motherfucking shine
I done got mine
And I'm still in the lunch line
Finna eat for a second time
Then a third motherfucker
I'ma come back, take yours, motherfucker
Cause you don't deserve, motherfucker
You gotta earn motherfucker

My future bright
Gave the game so much of my life
Reinvented effortless like resurrecting Christ
I'm not religious though the universe sending me signs
Ball out right now, it's your motherfucking time
Get your motherfucking shine

My future bright
Gave the game so much of my life
Reinvented effortless like resurrecting Christ
I'm not religious but the universe sending me signs
Do it all, ball out, it's your fucking time
Get your fuckin shine
Get your fucking shine
The universe be sending you signs

Huh, she pulled up in the tech mode
Thank her for that though
Passed up some fat rolls for after the episode
Repeat frequently if she could respect the code
No dirt on my name, no stains on my clothes
Jet life on my chain
Jet life on my rolls
I'm all in her brain
You losing control
My future bright
Gave the game so much of my life
Reinvented effortless like resurrecting Christ
I'm not religious though the universe sending me signs

Do it now, ball out, it's your motherfucking time
Get your motherfucking shine
I done got mine

Chet Sauvier, monsters under your bed
Radioactive bitch
