

Smoke n Plot

Curren\$y

All I do is smoke n plot
All I do is smoke n plot now that I made it to the top
Can't let them knock me out my spot
Knowing I'm the one to watch now that I made it to the top, my nigga
All I do is smoke n plot
All I do is smoke n plot now that I made it to the top
Can't let them knock me out my spot
Knowing I'm the one to watch now that I made it to the top

(Uh) wow I'm selling out shows, I used to sell out bricks
When opportunity knock you better let em in
This my Aaron Rodgers flow, bitch I'm a veteran
If they ain't talking dead prez's that's irrelevant
No not talking X-Games when I tell you that I'm pedaling
Pistol under my letterman
That's only for protection, fuck the world I'm never celibate
Henny mixed with that Mary Jane is my medicine
I never brought them dreams they was tryna sell to me
Cops knocking don't let em in
My jump shot was three for three, my bro was selling three for ten
Just to the pay rent, you smell the refer through the vents
Tour the world with my best bros like where haven't we been
Rule one, never pillow talk to no bitch, boy

All I do is smoke n plot
All I do is smoke n plot now that I made it to the top
Can't let them knock me out my spot
Knowing I'm the one to watch now that I made it to the top, my nigga
All I do is smoke n plot
All I do is smoke n plot now that I made it to the top
Can't let them knock me out my spot
Knowing I'm the one to watch now that I made it to the top

Elevators in my house, everything down south
I been living like a kingpin for like a minute now
Hustled underground, cultivated our sound
Money, bitches, weed around, and I'm probably found
Love follow me now, I guide you through the town where suckas get layed down
They swinging K's around that playground
I'm having flat water looking at figures from the third quarter
We gotta improve on the game, we can always grind harder
T be wise and smarter, that's what I pray to the lord for
The vision needed to recognize the evils niggas be hating like true heathens
To cop them two seaters
I seen it all like I was in theater on pins and needles

All I do is smoke n plot
All I do is smoke n plot now that I made it to the top
Can't let them knock me out my spot
Knowing I'm the one to watch now that I made it to the top, my nigga
All I do is smoke n plot
All I do is smoke n plot now that I made it to the top
Can't let them knock me out my spot
Knowing I'm the one to watch now that I made it to the top

Wake up and I roll up then plot to get the bags
You be hating from the sidelines while you sitting on your ass

I ain't know to talk a lot unless it's bout some cash
You know Trade, I'm on the low low, smoking halves, doing math
When I step out I be dripping in the coupe with soft rag
Pull up with a thot with a pretty face and nice ass
Bring her straight to the spot where we smash and blow gas
Then I call up a Uber to come and scoop her then I dash
Then I'm straight back to the grind with it
Money on my mind really
If it's bout some paper playa hit me on my line, nigga
I done put in overtime for mine, I'm inside chillin
Plottin to leave millions under buildings with instructions for my children

All I do is smoke n plot
All I do is smoke n plot now that I made it to the top
Can't let them knock me out my spot
Knowing I'm the one to watch now that I made it to the top, my nigga
All I do is smoke n plot
All I do is smoke n plot now that I made it to the top
Can't let them knock me out my spot
Knowing I'm the one to watch now that I made it to the top
