

Still Stoned on Ocean

Curren\$y

Keep the E in it, Chevies on switches baby
Smoking weed in it
Keep the E in it, Chevies on switches baby
Smoking weed in it

Whatever goes around
Comes around
Whatever goes around
Comes around

Keep the E in it, Chevies on switches baby
Smoking weed in it
Keep the E in it, Chevies on switches baby
Smoking weed in it

So much money to be made while they're sleeping
Like they don't need it
Been jumped off the porch staying afloat in the deep end
I be with the sharks linked that's adult swim
Diamonds in your face I'm what a boss is
Frank White money in the bank
Get you out the way, small price
They [?] them niggas paying for it with they lives
I watched it all go down while I got high
I'll only offer my advice one time
Check yourself before you wreck yourself, you best respect my mind
Or get from round, y'all niggas is a different kind
Roll cages in my Porsche practicing on a closed course
Private circuit, fifty laps, racing is an expensive sport
A hobby that I can afford because I worked so hard, hold the applause
Until the end of the speech listen to Gs
Live niggas seen the shit you boys trying to see
You trying to finesse to get in but they invited me
I probably won't pull up, they'll still reserve a spot for me
So much money to be made while they sleeping

So much money to be made while they sleeping
Like they don't need it
Been jumped off the porch staying afloat in the deep end
I be with the sharks linked that's adult swim
Diamonds in your face I'm what a boss is
Frank White money in the bank
Get you out the way, small price

Keep the E in it, Chevies on switches baby
Smoking weed in it
Keep the E in it, Chevies on switches baby
Smoking weed in it
Don't post too many pictures
If you can keep a secret we can always kick it
Rule number one don't talk about me around your nigga
