

The World I Know

Curren\$y

Yeah

My shoe collection too fly for the floor
Gotta put 'em on the wall like awards
Closed on another house, opened more doors
Escape tunnel system all in the floors
I predict a war
The first day Dump stepped in office
Post traumatic stress disorder simply 'cause I'm from New Orleans
Very close, home is where they seen me get close to stardom
Bring they names up all the time, it's like I never lost 'em
I shine for 'em
This Rollie just got delivered, I rock that ice for my niggas
I know that they woulda did it, six chains for my homie Nipsey
Up in the shape joint throwin' away stacks in the name of pack
Way too many to name, so I stunt away the pain every chance I can
Doja through the roof of the Range Rover, man
Rollin' up my own strain on my own plane

The world I know, a world too slow
I gots the dough, I'm after mo'
Buy cars to see how fast they go
Treehouses we smoke gas and Os

Money stacks (Stacks) tall as me all I wanna see (All I wanna see)
Another regal, new Beamer, gotta wait and see (Gotta wait)

But it's life (It's life), by all means anyway (By all means)
And this the life (This the life), got Jet Life on everything (On everything
