

## Al Capone

Current Swell

In the early dirty thirty's of the great depression there was a  
prohibition  
but no one listened to them  
Police and the priest and the judge on trial,  
they were even know to have a drink every once in a while  
So it was shoot to kill in the battlefield downtown chicago,  
where Elliot Ness took on the mafia's best his name was Mr Al C  
apone  
raised up in the streets it was only a matter of time now he's  
the one  
takin care of it all pushin booze across the border line  
and he said 55 gallons to the barrel filled up with rye  
in the back of a truck on the other side and it won't be long t  
ill it arrives  
if you don't buy your dead to me I'll kill you and your family  
I don't have time for the games you play I'm buisness man al ca  
pones the name  
don't you see time is money to me and you're wastin all my time  
so you're spendin up all my dime  
now you better make up your mind  
how can one man take on an empire alone i said  
how can one man change your mind when its as thick as stone  
its like a needle in a hay stack takin on a man like that and y  
ou're  
not gonna change the fact when you're over the river and you're  
gettin hi jacked  
he said 55 gallons to the barrel filled up with rye  
in the back of a truck on the other side and it won't be long t  
ill it arrives  
if you don't buy your dead to me I'll kill you and your family  
I don't have time for the games you play I'm buisness man al ca  
pones the name  
don't you see time is money to me and you're wastin all my time  
so you're spendin up all my dime  
now you better make up your mind  
you, you're wastin all my time  
so you're spendin up all my dime  
now you better make up your mind
