

## Buffalo

Current Swell

I am the bison you are the buffalo  
I am the bison you are the buffalo

I keep my mouth shut  
You keep telling me your ways  
Keep telling me what's what  
I can smile and nod for days

Cause I'll be right here, be right here  
I couldn't imagine being anywhere else with you dear  
No won you. I'll be right here, be right here  
I couldn't imagine being anywhere else with you dear

I am the bison and you are the buffalo  
I am the bison and you are the buffalo

I'll meet you head on  
I'll meet you one on one  
I'm sick of your headstrong  
Sick of you going on and on  
Cause I keep up with your style  
I keep up with what ya say  
I'll be patient now for a while  
Just try to come and meet me halfway

Because I'll be right here, be right here  
I couldn't imagine being anywhere else with you dear  
Oh won't you, I'll be right here, be right here  
I couldn't imagine being anywhere else with you dear

Am I wrong  
I'm not wrong  
I am the bison, I am the bison, I am the bison, I am the bison  
I am the bison, you are the buffalo, I am the bison, you are the buffalo, I am the bison  
You are the buffalo. You are the buffalo
