

## Cursed

Current Swell

You aint dreadful but I just got to get this off my chest  
Ya you're more successful but that don't really mean that you know what's best now.

Cause I work I work hard man deeper and later in to the night now

So how do I keep my cool when nothin' that you're doin' is doin' right now.

So you can go and say it straight today or just throw it all  
and you can go and say it straight today or just throw it all away.

The young now will be missing when it's gone they'll be wishing it was there.

And even if you listen it still would have been a mission for you to care.

Cause I aint no fool i work ya real hard in to the night now  
how do I keep my cool when nothin' that you're doin' is doin' right now.

you say that you know best I say you know worse  
telling us that we're all blessed I'm telling you we're cursed  
I'm just a man a man that got stuck  
Only doing good things only getting nothing but bad luck  
getting nothing but your bad luck.

I'm been cursed with your luck

I'm been cursed with your luck

I'm been cursed with your luck

I'm been cursed with your luck
