

Gone from Me

Current Swell

All that I can hope for
Is you find just what you need
When I seem to believe it used to be me
In time if I go find
Another one just like you
I'm scared and unsure
If I'll know just what to do

Would I do the same
Or would I do more
It's hard to believe
We've been here before
Would you do me right
Because you've done you wrong
I tell myself you're gone, you're gone, you're gone from me

You're gone you're gone you're gone from me

And all that I keep thinking
Is where did we go wrong
Was I lying to myself all alone
When so much times passed
It's hard to make a turn
But when I do I hope I leave with something learned

Would I do the same
Or would I do more
It's hard to believe
We've been here before
Would you do me right
Because you've done you wrong
I tell myself you're gone, you're gone, you're gone from me

You're gone you're gone you're gone from me

(I don't know where I'd go)

Gone for me
And it's hard to let everything keep happening happening wrong
to me
So now I'm gonna keep Everything everything everything miles ap
art
So now I'm gonna keep everything everything miles apart

You're gone you're gone you're gone from me
