

## If This Is Our Time

Current Swell

I'd say, I was surprised that you're a city girl  
Something that you said  
Right away, I could tell that we'd be wonderful  
Dancing around in bed

If this is our life, why would we waste it  
Talking the night away  
And if this is our time  
Then why don't we take it

How far must we go, must we go, baby c'mon  
Our lives don't move slow, don't move slow, baby c'mon

Baby c'mon, won't you come home, won't you come home  
Baby c'mon, won't you come home, won't you come home

Right away I could tell that you were holding out  
And not for another man  
You hesitate, and now I know now without a doubt  
That it's hard to make you understand

If this is our life, why would we waste it  
Talking the night away  
And if this is our time  
Then why don't we take it?

How far must we go, must we go, baby c'mon  
Our lives don't move slow, don't move slow, baby c'mon

Baby c'mon, won't you come home, won't you come home  
Baby c'mon, won't you come home, won't you come home

Baby c'mon, won't you come home, won't you come home  
Baby c'mon, won't you come home, won't you come home
