

Marsha

Current Swell

Dear friends don't take offence
She's the only one who I confide in.
Dear love, it's not what you thought it was
Or it is, so stop asking me where I've been.

Chorus:

Oh Marsha you have a way.
Nobody listens like you.
And I'll do anything that you say
Cause nobody listens, nobody listens like you.

Voices in my head
Can't possibly be good for my health
And is it wrong, when I'm all alone
I constantly talk to myself.

Chorus:

Oh Marsha you have a way.
Nobody listens like you.
And I'll do anything that you say
Cause nobody listens, nobody listens like you.
