When the cold of the night has come
The fire in my heart will keep us warm
Because you love me
Baby
As the trade winds blow me out to sea
My directions is a certainty
Because you love me
Baby
When the time comes for 2 or 1
You pray for fire and the fire come
Because you love me
Baby
And in a season to pray for rain
I know i'll be on my knees wishin that nothing had
Changed
But heart stayed the same
