

Staying Up All Night

Current Swell

Hey, my old friend
Where'd everybody go
Left me up here standing with these high hopes
Who turned out the lights
Has anyone a map
We forgot to keep up, we just let it all lapse
'Cause we were young

We were crazy
Staying up all night
Falling in love just to prove the point
To prove the point

Doing what you can
Taking what you like
Think of me when you wake up in the middle of the night
Wait for it to pass
Press ahead alone
Stress is meant to take our sand and turn it into Stone
'Cause we were young

We were crazy
Staying up all night
Falling in love just to prove the point

To prove the point

They call it getting old, but I like it like that
And what we're told, is to be nice and kind
We're getting old but I like it just like that
What we're told is to be nice and kind

We were crazy
Staying up all night
Falling in love just to prove the point
To prove the point

We were crazy
Staying up all night
Staying up all night
Falling in love just to prove, to prove the point
That we're crazy
We were up all night
Falling in love just prove that we were crazy
Crazy in love
