

You Got It Easy

Current Swell

Seven nights and seven days
I left my home cause knew I couldn't stay
But I'm alright, I'm ok
I ain't gonna listen to you anyway

Chorus:
You said you got it all figured out
You got it easy
You said you got it all figured out
You got it easy

Alright, OK
I ain't gonna listen to you anyway
Alright, OK
I ain't gonna listen to you anyway
Alright, OK

That's just the life that you're living, living, living
Acting like these people wanna listen, listen, listen
If I could only have one way now, way now, way
I'd laugh at all the truth in what you say now, say now, say

Alright, OK
I ain't gonna listen to you anyway

Chorus:
You said you got it all figured out
You got it easy
You said you got it all figured out
You got it easy
You said you got it all figured out
You got it easy
You think your body talk about (?)
You got it easy

Alright, OK
I ain't gonna listen to you anyway
Alright, OK
I ain't gonna listen to what you say
Alright, OK
Alright (x2)
