

Young and Able - 2015

Current Swell

Hey, my baby, well, ain't that nice
We'll turn our lifestyle into a paradise
Said, living on the beach and eating fish every day
Sipping from the fruit from the juice that she made

She loves me now, why wouldn't she?
Well, I love my baby, and my baby loves me
And she loves me now 'cause I'm young and able
She loves me 'cause what I bring to the table

And she's on the top, and I'm on the low
Take her anywhere that she would wanna go
But let me know if I cross the line
I say, taking it slow is just a waste of our time

And she loves me now, yeah, why wouldn't she?
Well, I love my baby, and my baby loves me
And she loves me now 'cause I'm young and able
She loves me 'cause what I bring to the table

Well, thank you, ma'am, well, I do adore
But this ain't the first time that I've been here before
Getting easier with every task
Yeah, not the first time and it won't be the last

Thank you, ma'am, for what you do
But I know now where I'm going 'cause I found just where I'm from and
Getting easier with every task
Yeah, not the first time and it won't be the last time

Everybody wants a piece of the pie
It's easier now if you justify
Your home is where you make it, you make it where you live
You don't get what you want but you can get what you give

And coffee in the morning is what she would make and
In the afternoon, you know we're feeling the break
You know we're feeling the break, you know we're feeling the break
You don't get what you want, but you can get what you take

And she loves me now, yeah, why wouldn't she?
Well, I love my baby, and my baby loves me
And she loves me now 'cause I'm young and able
She loves me 'cause what I bring to the table

Thank you, ma'am, well, I do adore
But this ain't the first time that I've been here before
Getting easier with every task
Not the first time and it won't be the last

Thank you, ma'am, now for what you do
But I know now where I'm going 'cause I found just where I'm from and
Getting easier with every task
It's not the first time and it won't be the last time, yeah

Thank you, ma'am, well, I do adore
But this ain't the first time that I've been here before

Getting easier with every task
Not the first time and it won't be the last

Thank you, ma'am, now for what you do
But I know now where I'm going 'cause I found just where I'm from and
Getting easier with every task
It's not the first time and it won't be the last
